Summer is in full swing!

Since we spend more time outdoors, sun exposure to your eyes can cause multiple eye problems (such as cataracts, pterygiums, retinal problems, corneal problems and more).

Everyone is at risk without proper eye protection. From kids playing at the beach or hanging out in school, to adults driving in traffic.

TWO COLORS

are better than one

WITH

Transitions®

OFFER DATES: JULY 1 – AUGUST 31, 2024

For the first pair you must get Crizal Anti-glare, Transitions, and either Varilux XR (the newest progressive) or Eyezen (an anti-fatigue lens with blue light blocking technology). Your second pair will be 50% off! You could get prescription sunglasses, reading glasses, or a back-up of your daily pair.

Come to see us at Precision Vision Hawaii to check out the latest styles of eyewear today! Call us at 808-946-6136 for our Town location or visit our website, precisionvisionhi.com, to book an appointment.
